

TOMSON BROS.

**WAKONA**  
**SHORTHORNS**

Premier  
Production  
Sale

**SATURDAY, MARCH 15, 1969**

**AT THE FARM, WAKARUSA, KAN.**

This is Windswept, the new Tomson home at Wakona Farm. Be there the night before the sale for the housewarming buffet dinner.

**TOMSON BROTHERS  
WAKONA FARM  
Premier Production Sale  
SATURDAY, MARCH 15, 1969**

## General Sale Information

**TIME** — Saturday, March 15, 1969, Tomson Brothers' Wakona Farm, Wakarusa, Kan. The sale begins promptly at 12 noon, C.S.T.

**LOCATION** — Wakona is four miles southwest of Wakarusa, Kan. Wakarusa is on a paved spur west of U.S. Highway 75, 12 miles south of Topeka. See the map on page 9.

**TELEPHONES** — James Tomson: (913) 761-2258

Vernon Land & Sale Barn: (913) 564-7331

Clint Tomson: (312) 232-2100

**BREEDING DATES** — A complete list of breeding dates and other vital information will be provided sale day. Announcements made from the auction block supersede all other material, either written or oral.

**GUARANTEE** — All cattle in this sale are sold under the Standard Guarantee endorsed by the American Shorthorn Ass'n. A condition of that guarantee is that notice of failure to breed must reach the seller within six months of the sale. Shipment will be made as soon as possible after the sale, but all stock is at the buyer's risk as soon as bid off. Every precaution will be taken to see that animals arrive in sound condition, but we strongly recommend that you insure your purchases. Insurance will be available from the clerks.

**TERMS** — The terms of the sale are cash. Settlements are to be made with the clerks at the conclusion of the auction and before any purchases are removed.

**HEALTH** — All cattle sold will comply with the Kansas health regulations and health certificates will be provided with each lot sold. Official calfhood vaccination for brucellosis is practiced. All cattle have either been vaccinated or will have passed a brucellosis test within 30 days of the sale.

**LIABILITY** — The above guarantee and terms shall constitute a contract between the seller and buyer of each lot. Those working on the sale have been employed by the sellers for specific promotional and clerical tasks not connected with the condition of the premises and accept no liability for the contract or for any accident that may occur. Where footnotes appear in this catalog, they were furnished by the owners. The owners will not be responsible for any accidents but they will make every effort to provide for the safety and comfort of those attending.

**TRANSPORTATION** — Since Kansas City is only 75 miles from Wakona Farm, we will be happy to meet all who advise us in advance of their arrival at Kansas City. There are also a number of air shuttle flights from Kansas City to Topeka. Those driving can take the toll roads from Wichita and Kansas City. Use the South Topeka exit and then follow the map on page 9 to the farm. Topeka is on the lines of the Santa Fe, Union Pacific and Rock Island Railroads and is serviced by Frontier Airlines.

**SALE HEADQUARTERS** — Howard Johnson Motel, 3839 South Topeka Boulevard (U.S. 75), Topeka. See map on page 9. Tel: (913) 266-4700. We will be happy to make hotel reservations for you or you can write directly to the hotel indicating that you will attend the sale. Transportation will be available from the motel to the farm.

**ENTERTAINMENT** — From 5:30 p.m. Friday, March 14, help us "housewarm" Windswept, our new home at Wakona. All of our many Shorthorn and Polled Shorthorn friends are cordially invited to be our guests.

**LUNCH** — Will be available on sale day at 11 a.m.

**MAIL ORDERS** — Those unable to attend may send buying orders to any of the following reliable men, all of whom will attend, or to the owners or staff of Wakona Farm.

**C. D. Swaffar**, executive secretary, American Shorthorn Ass'n, 8288 Hascall St., Omaha, Neb. 68124. Tel. (402) 393-7200.

**Harris Simons**, The Shorthorn World, 16 S. Locust St., Aurora, Illinois 60506. Tel. (312) 896-8511.

**Ted Aegeuter**, assistant secretary, American Shorthorn Ass'n, 8288 Hascall St., Omaha, Neb. 68124. Tel. (402) 393-7200.

**Bill Stunkel**, The Shorthorn World, 1228 N. Nye Ave., Fremont, Neb. 68025. Tel. (402) 721-7254.

**Mike Wilson**, The Kansas Farmer, Muscotah, Kan. 66058. Tel. (913) 872-1461.  
**Dwayne Dietz**, The Drover Journal, Harrisonville, Mo. 64701.

Tel. (816) 842-5980.

**Willis Huston**, The Kansas Stockman, 2044 Fillmore, Topeka, Kan. 66604. Tel. (913) 232-7279.

**Paul Good**, auctioneer, Van Wert, Ohio 45891. Tel. (419) 232-7591.

**Dick Kane**, auctioneer, Wisner, Neb. 68791. Tel. (402) 529-6785.

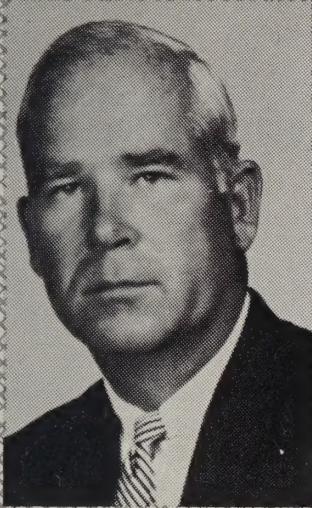

**INSURANCE** — Will be available from the clerks through Harding and Harding, American Livestock Insurance, Geneva, Ill. 60134. Tel. (312) 232-2100.

**FARM FORCE** — Vernon Land, registered herd. Rick Cooper, herdsman. Pete and Dale Vail, commercial herd. Leonard Claar, pastures. Carl Moore, office. Wayne Land, equipment.

JIM TOMSON

BETTY AND CLINT TOMSON

## WELCOME TO WAKONA!

Following our father's death in 1964, we were faced with determining whether to continue or to dissolve a program that had been successful for 78 years. We could find many reasons to continue, and none to disperse.

To most of you the history of our program is fairly well known. We have consistently utilized Shorthorns with bloodlines that were backed by animals of similar type which we felt effected the most useful influence on our own herd. The Tomson type has been recognized for many years as embodying cattle that thrive under conditions which represent the backbone of mid-American agriculture — grass, hay, silage and a limited amount of grain. Our cattle are developed outdoors and are handled under conditions that insure their usefulness to our customers.

Augmenting foundation female families of Scotch background, such as our Bruce Augustus, Mayflowers, Clippers, Orange Maids, Marigolds, and others, we have purchased and used successfully imported bulls including the noted Beaufort Barony, Uppermill Wordsworth (a modern, big bull before his time), Glamis Bobby-dazzler, and more recently, Louada Javelin. These bulls had one thing in common: strength through similar heritable characteristics that marked their offspring in a most prepotent way.

Beginning in the 1930's, an effort was made to demonstrate that Tomson Shorthorns could win in the strongest shows. Many International and American Royal firsts and championships were won by cattle in our own hands and, better still, in the hands of our customers. Only recently, the 1969 Phoenix grand champion steer represented many generations of Tomson breeding on his sire's side.

Combined with our decision to continue was a determination to increase the size of our herd and widen the selection of bloodlines available. To this end we have purchased CB Dynasty, the West Coast champion, KC Royal Event by Kelburn Great Event, KC Great Duke by Kelburn Great Event, Keynote Clipper Max by the International reserve champion Keynote's Navigator, and more recently breeding interests in the International reserve grand champion Sutherland Prospector x, the first Polled Shorthorn bull ever to enter our breeding program, and Scotsdale Beaconsfield by Scotsdale Tehran.

To widen our working force and to team up with veteran Vernon Land who was born and has lived on Wakona as a herdsman most of his life, we were fortunate in securing Rick Cooper who is known to most of you. These two, along with John and Tom Tomson, bear the brunt of daily supervision of our breeding and fitting program. John and Tom are Jim's son and represent the fourth generation of Tomsons at Wakona.

We have purposely waited until our breeding herd numbered more than 300 head before holding this sale. We plan to continue it on an annual basis. We think you will like what we offer and ask only that you come and make your own appraisal. Be our guests the evening of March 14, after looking over the cattle the day preceding the sale and spend all day with us March 15. A warm Wakona welcome awaits you all.

JIM AND CLINT TOMSON

# WAKONA:

**James G. Tomson, Sr., the late father of Jim and Clint Tomson, guided the Tomson operation for three-fourths of a century and wore out several good cow horses in the process.**

*(Note: The following story appeared in the Centennial Report of the Kansas State Board of Agriculture in 1961, when James G. Tomson, Sr., was honored for his contribution to Kansas agriculture. The following is as it appeared in "Kansas Agriculture" and "The Shorthorn World."*

Member of an illustrious family of Kansas stockmen and head of a firm that has produced purebred Shorthorns of quality for 75 years, James G. Tomson, Sr., is a master cattleman and leader among livestock men of America.

He long has been recognized as one of the outstanding beef cattle judges of the nation, has served as a director of the American Shorthorn Ass'n and as president of the Kansas Livestock Ass'n. Tomson is truly representative of the hundreds of senior farm people of Kansas who have pioneered in the development of the mighty agricultural state. Like so many of these people, Tomson remains in good health, actively conducting the day by day business of farming.

#### **Leather plaque presented**

Tomson was honored at the 44th annual meeting of the State Board of Agriculture. President of the Board Andrew E. Olson presented Tomson with a leather plaque engraved as follows:

**Honoring James G. Tomson, Sr., pioneer farmer and stockman, for long, distinguished service to Kansas agriculture. Presented by the Kansas State Board of Agriculture, Topeka, Jan. 11, 1961, Centennial Year.**

Tomson said in response:

"I certainly appreciate the honor, and I thank you for this beautiful plaque. When your secretary Roy Free-

land told me that I was to be honored at this meeting, I felt quite elated for he emphasized the fact it was to be a centennial celebration. I was elated until I got to thinking perhaps I had been chosen because I looked more like 100 years old than anyone in the group.

"But when Roy Freeland made this selection he didn't know that I had another alibi to get in on. It was just 100 years ago my parents drove into Topeka in a covered wagon from the East. They came out here to make their home and spent their first winter on what is known as the Freeman Foster farm about five miles south of Topeka. Now it's just in the outskirts.

"After spending about a year in this neighborhood, they migrated on out to Upper Mission creek near Dover. They homesteaded out there just as others were doing. They went through all of the hardships of that time. If you wanted provisions such as flour, someone had to go to Leavenworth and bring them home. Quite different from modern, electric-eye grocery stores we have in Topeka now.

"Father had rather a mild temperament and he understood cattle pretty well, so one of his first sources of income was to break steers to work as oxen for the neighbors. He didn't get much for the work, but he did get some sod broken which he wouldn't have if he hadn't had the extra oxen to work.

#### **Herd begun at sale**

"As for our Shorthorn development, my father had begun to accumulate a few cows. In the '70's he got together quite a little group of cows, but in '86 he attended a purebred farm sale. Among others he bought a registered cow we took home with a good deal of pride.

"Fortunately her first calf was superior to any that we had among our

# Producing Shorthorns for 84 Years!

grade cattle. It made an impression on us boys. From then on we decided we ought to become purebred breeders. As father could afford it he bought a few more cows. By the '90's we had built a sizable group of registered cows. We never failed to get the best sire we could, and in the late '90's, we bought the best calf we could from Col. W. A. Harris, Linwood, who had one of the leading Shorthorn herds at that time. This bull began to produce calves that were outstanding.

"The Royal was established and opened to Hereford cattle about 1899. In 1900 they opened the door and took in Shorthorns, Angus and Devons. By that time we began to feel pretty proud of our cattle and decided to take a few head to that show. Fortunately, our bull, Gallant Knight, was reserve champion at the first American Royal. That was my first experience at a cattle show. I fed a show herd for 10 years myself and we never wore out our success.

"In that procedure we met many of the prominent men in the Shorthorn business. My older brother, John, was invited to become a director of the Shorthorn association. He served as director several years and two terms as president. Then my brother, Frank, who had done a lot of writing for live-stock papers, took over a publication that the Shorthorn people were putting out called the "Shorthorn in America." He edited that for a while. As for me, I came along and they had me hold a directorship for two terms.

"By that time my sons were stepping on my heels, and I had to step aside and let them have a chance. My older son, Harold, who is here tonight, didn't care much for the Shorthorn end of it. He liked a little more activity. He did report for the Kansas City Market Telegram for one year and then became a

salesman for the Marathon Paper Co. Sounds like he was getting a good ways from cattle but he wasn't. He later became western sales manager for Marathon.

"He has sold enough paper and packaging to packing houses and creameries to cover all the products that they put out, and that way he's kept close to Shorthorns. My next son, Clint, had to have something to do, and they named him secretary of the Shorthorn association for about 10 years. My next son, Jim, is now (1961) director and president of the Shorthorn association, so you see we've been close to the institution all these years. I don't mention that boastfully, but I do want to illustrate what one outstanding Shorthorn heifer did for our lives.

## Retires several horses

"As for myself, someone named me the Tomson Chore Boy. That's just about as good a name as I could have had because I've been on the firing line all these years. In the winter months it is my duty to see that the cattle are taken care of so that they keep on developing. And in the grazing months if I'm not busy with something else, I'm continually riding the pastures on horseback. My grandchildren, of which I have nine, all have ridden with me through the pastures. We have had some wonderful conversations looking over the cattle.

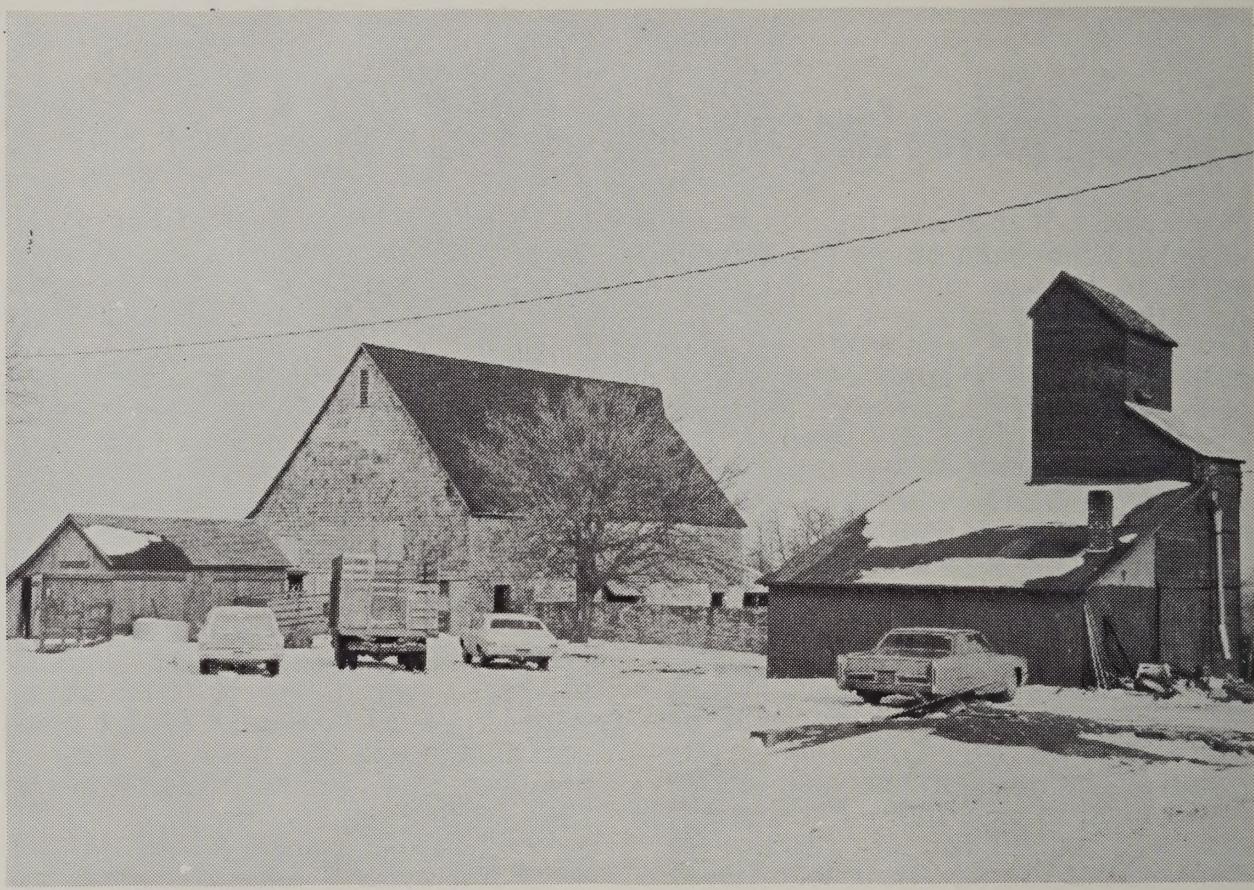

"During these 75 years I've retired several cow horses that I enjoyed very much, but they couldn't seem to carry their age like I did.

"Those years of riding pastures have been wonderful for me, and I've enjoyed them a lot.

"It's been wonderful to be with you. You've all been wonderful friends throughout the years. I can't tell you how much I appreciate this recognition."

**All of these bulls sell at Wakona on March 15. For 84 years, Wakona has been a source for the best of registered and commercial Shorthorn herds. One Kansas commercial man recently purchased his 30th consecutive Tomson bull.**

This is the home farm where Tomson Shorthorns are developed. Everything is kept on a practical basis and the management is among the best in the business.

## COMMERCIAL SHORTHORNS PLAY MAJOR ROLE IN TOMSON PROGRAM

A commercial Shorthorn operation has long been an important part of the Tomson Brothers Farm.

It began with Shorthorn calves purchased from the Sellems Ranch, Bunker Hill, Kan., and handled on the famous and sound Kansas system of deferred feeding. This program starts with good quality calves in the fall that are wintered on silage, supplemented with a pound of protein and a small amount of grain, not to exceed five pounds. Then, they are summered on native grass. After being full fed 100 days, they produced carcasses that graded choice with a minimum of fat covering, but well-marbled throughout.

Later with some mature cows from the Brown Ranch, Folsom, N. Mex., we started our commercial cow herd. It grew in size but always varied, depending on feed availability and rental grass. In some years as many as 600 head of cows are in the commercial herd.

We believe that our broad experience with commercial cattle has helped us become better registered Shorthorn breeders because the needs of a profit-

able commercial operation should and must be the goals of a registered cattle operation. Actual gains plus economy of gain in a practical farm operation year after year sometimes are more dependable than short tests under unusual conditions.

We believe that the right kind of beef cattle are the most efficient converters of grass and roughage. They produce a choice carcass with a relatively low amount of grain. We have found in our experience with many different kinds and types of cattle that the right kind of Shorthorns or Shorthorn crosses achieve this goal better than any other kind of cattle.

We do not subscribe altogether to present steer show standards. We all have seen championship lineups that left something to be desired for the practical cattleman. Selection of champions that have required excessive exercise or starvation diets to keep gains low, hardly fits an industry that produces most of its beef tonnage from grass and roughage.

We are proud that Wakona commercial females have gone to many states, including Hawaii. Our bull sales over

**These young sons of Louada Javelin are developed outdoors on Kansas pasture. In the last two years his sons have averaged \$820 with many of them going to commercial herds.**

the years have been to registered breeders, plus many commercial operators. They range in size to the vast Brown Cattle Co., Folsum, N. Mex., which, over a period of years, has purchased more than 100 bulls. With a few exceptions, we have bought their productions year after year. Richard Bird, Coldwater, Kan., and Robert Widau, Eskridge, Kan., also are large commercial operators who have bought a good number of bulls from us. Many more have been sold to smaller commercial operators including one who has bought 30 consecutive bulls.

We are well underway in a program of slaughtering sons and grandsons of our herd sires for home consumption. Not only do we personally get a view

of the retail cuts, but also we can evaluate the taste. Included in this program are cut out yield figures, brisket yield figures, and normal carcass information.

We are just now starting a cross-breeding program with commercial Shorthorn heifers that will allow us to show the prospective bull buyer of other breeds the results of such a cross first hand. We will be able to give him figures on weaning weights, grass gains, and selling price. Just recently we have sold bulls in both Texas and Kansas to substantial commercial operators of another breed. Surely this type of trade will increase over the years so that it will be a major factor in the Shorthorn economy.

**Proof of the Tomson breeding program lies in these steers from the Brown Ranch in Folsom, N. Mex., sired by Tomson bulls. They still hold a record rate of gain at the Purina Research farms. This photo was taken in 1949.**

This is a rear view of "Windswept" the new Tomson home at Wakona. Plan to be there at 5:30 p.m., March 14 for the big housewarming party.

## A Big Weekend!

### Be Our Guest

Arrive as early on sale week end as you like. Plan to be with us from 5:30 p.m. on to help "house-warm" Windswept, our new home on Wakona at buffet dinner.

### Delivery Offer

Tomson Brothers agree to guarantee delivery of all purchases in the sale at a convenient time to central points throughout the United States or to the Canadian and Mexican borders at a cost of no more than \$50 a head. In other words, no matter where you live, delivery will cost you no more than \$50 a head, and it likely will be considerably less through grouping shipments.

### Be A Part Of This Sale Series

MARCH 14 — Cen-K, Lin-Dee, Dietz Production Sale, Salina, Kan.  
Then on to Wakona for the housewarming at Windswept.

MARCH 15 — Tomson Brothers Premier Production Sale.

MARCH 16 — On to KC Shorthorns, Kansas City. Be their guest at dinner that night.

MARCH 17 — KC Production Sale, Kansas City.

ALL THREE SALES ARE WITHIN AN HOUR AND A HALF'S DRIVE OF EACH OTHER.

# Tomson Junior Incentive Program

Wakona is pleased to announce the establishment of its Junior Incentive Program designed to encourage Shorthorn breeders under the age of 21 to add top-quality stock to their herds.

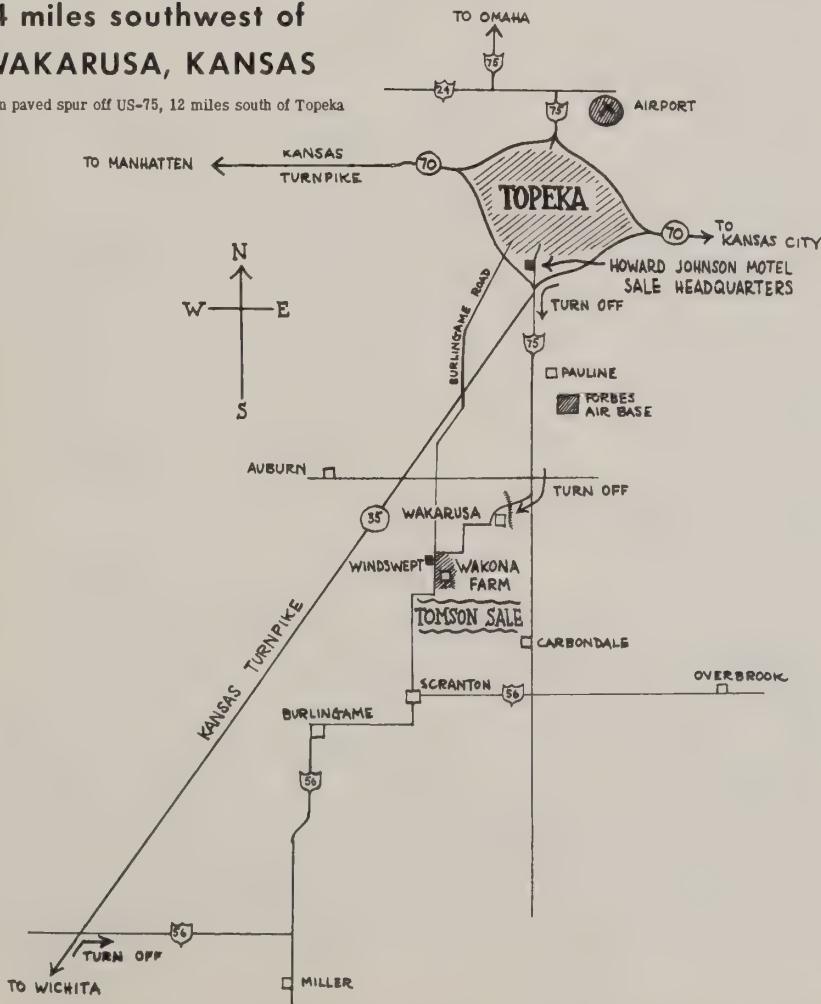

Here's how it works:

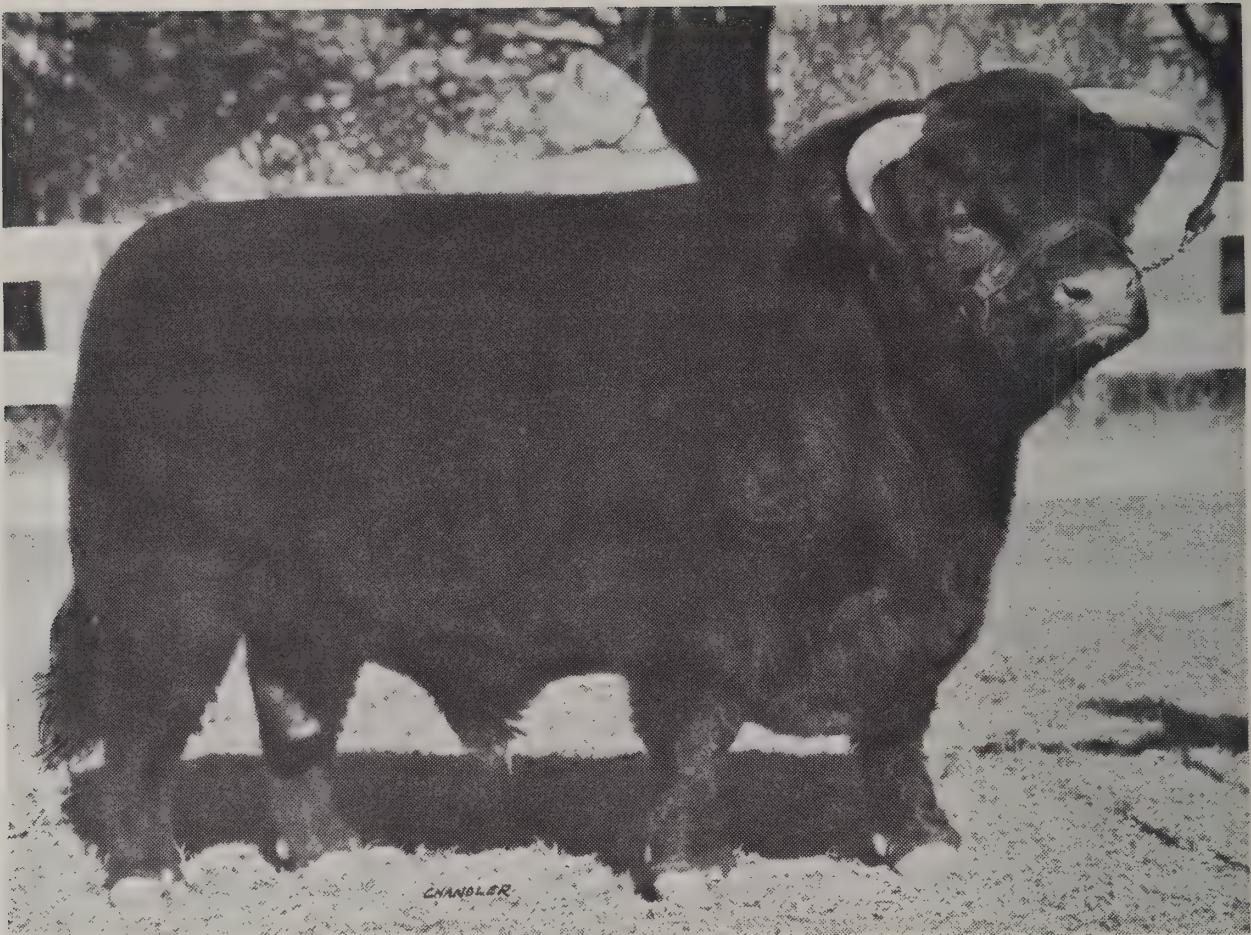

1. All junior members of the American Shorthorn Ass'n will automatically receive a 10% discount on any purchases made in Tomson sales. For example, if the price bid is \$500, the junior member pays only \$450. In addition, the Tomsons will deliver all Junior Incentive purchases without charge.
2. Register by mail or in person prior to the sale by reporting the number of your junior membership certificate or completing an application for membership and paying the one-time \$5 fee.
3. Announce at the time of purchase that this is a Tomson Junior Incentive Program purchase.
4. Agree at the time of registering that purchases are primarily for the use of the junior member in whose name the purchase is made. The offer applies to either bulls or females.

**LOUADA JAVELIN** — He was the Tomson choice of the first sons of the Perth supreme champion Glamis Benefactor and has proved to be one of the best in a long series of great breeding bulls. A combination of A. J. Marshall and Glamis breeding, he met the general type requirements basic to the Tomson program for so many years. For the last two years the sons of Louada Javelin have averaged \$820 and a large number have gone into commercial herds. He is perhaps the most consistent of all the Tomson sires. His calves are the kind that have made the most of whatever opportunity has been given them. Louada Javelin was lost late last fall, so that it is difficult to part with his daughters. A large number, however, are catalogued as special attractions.

KELBURN GREAT EVENT — A year ago, Wakona was pleased to purchase a son of Kelburn Great Event from KC Shorthorns, Kansas City, Mo. Because of an unfortunate injury that bull was incapacitated. Until he could be suitably replaced, Wakona acquired a supply of semen through the generous cooperation of KC Farms. Accordingly, a large number of the females selling will carry the service of Kelburn Great Event. To recount the achievements of Great Event would be to list an important chapter of modern Shorthorn history. He is well known to you all. His influence will be continued at Wakona through his son, KC Great Duke.

**KC Great Duke as he looked at Wakona early in February.**

SCOTSDALE BEACONSFIELD — Owned jointly with KC Shorthorns, Kansas City, Mo., is this son of the 2,300-pound Scotsdale Tehran. He is line-bred to Perth supreme champion Calrossie Prefect that has stood for size and substance for generations. Similarly bred Scotsdale bulls were the world's top-sellers in both 1967 and 1968. Although Beaconsfield was only recently acquired, a number of sale females will carry his service or sell with breeding privilege to him.

**SUTHERLAND PROSPECTOR x** — This International reserve grand champion is the first polled bull ever to enter the Tomson program and certainly he is one of the best bulls in service anywhere today. Tomsons are pleased to share ownership with Sutherland Farms, Prospect, Ky., and with Ben G. Studer, Wesley, Iowa. Prospector sold at the top of the 1968 Sutherland spring sale before becoming the Kentucky State Fair grand champion and International reserve grand champion. He weighed 1,065 pounds at a year and is hailed by expert cattlemen as being very close indeed to the model beef type of the future. A number of sale females will carry his service or sell with breeding privilege to him. He also was grand champion in mixed competition at the 1969 Dixie National.

How would you like to own a group of young bulls like these? They are only a few of the many strong sons of Louada Javelin being grown out at Wakona.

## 84 Years of Quality and Fair Dealing

For three generations the Tomsons of Wakona Farms have been building one of the country's biggest and strongest operations. It's a many-sided project and one you'll want to study at first hand the weekend of March 15.

The entire family has served the breed well. Today Jim and Clint Tomson are at the helm. Both "Builders of the Breed," Jim is past president of the

American Shorthorn Ass'n and Clint is a former ASA executive secretary and before that was with The Shorthorn World. The Tomson reputation for fair-dealing has brought scores of repeat customers. One breeder, for example, recently purchased his 30th consecutive Tomson bull! Tomson females, too, historically do well for others, like the Secret Maid that produced Bilmar's 1965 American Royal reserve grand champion female. Two daughters later sold at \$1,025 and \$950 and Bilmar sold the cow herself at \$1,400 at six years.

**Harris Simons** Since all of the Tomsons have been active with Shorthorn since childhood, they have a special interest in junior members. Accordingly they are inaugurating the Tomson Junior Incentive Program which offers a 10% discount to any junior member of the American Shorthorn Ass'n and free delivery on these purchases. No matter how old you are, you can take advantage of the delivery offer that guarantees a cost of no more than \$50 a head to central points in the U.S.

The Tomson families have planned a warm welcome for you. You'll want to be there the night before the sale for the big housewarming dinner at "Windswept", their new home. Here is an operation you should see. Here are cattle that you can use to advantage as so many have for the last 82 years. It promises to be a big weekend. You'll want to be along.

HARRIS SIMONS  
The Shorthorn World

KEYNOTE'S CLIPPER MAX — He was purchased as a very young calf. We had the opportunity of seeing him at birth and several other times during his development, and we became convinced that he was one of the biggest young calves we had ever seen. Weaned early, he still reached a weight of 1,100 pounds at two weeks over a year. He ran with a group of cows this summer. We have used him heavily this winter and have calves by him now that look modern and trim. He will be an important cog in our breeding program in the years ahead. His sire was International reserve grand champion bull. Selling one-third interest and possession. We have a bank of semen already collected.

# Four Of The Tomson Secret Maids Sell!

## Here's What One Secret Maid Did

Secret Maid 10th was sold from Wakona to Bilmar Farms, Durand, Michigan. She subsequently produced their 1965 American Royal reserve grand champion and two daughters that sold at \$1,025 and \$950 each. The cow herself sold in the 1968 Bilmar sale at \$1,400 to Hollyshire Short-horns, Holly, Mich.

## **About The Stunkel Pedigrees**

Last fall we were fortunate in being able to purchase a large group of females from the well known Kansas herd of E. L. Stunkel & Son, Peck, Kan. This herd, as was the case with Tomson Bros., was founded on some key females of Scottish origin. The Maid females were descendants of an original imported and world famous Duthie Maid of March tribe. The Orange Blossom family from Stunkels originated from the John Law herd in Scotland. One of these purchased by Edellyn Farms produced Edellyn Royal Leader 149th that sold for \$15,000.

The Lavenders were from a cow purchased in 1937 from the noted Robinwood herd, Greenfield, Ind. She was responsible for many of the great females that were retained.

The Nonpareil Lady tribe came from Chenault Todd foundation in Missouri. That original cow produced one herd bull, Browndale Masterpiece, that left a most favorable influence in Ninnescah Valley.

The Stunkels consistently used top-performing and top-selling bulls, such as Rothes Prince, M F Gold Mine, Pittodrie Leader, Envoy Marshal, Claymore Marshal, Royal Captain John, Royal Constructor and more recently one of Tomson Bros.' champion bulls, Gallant Grenadier by Glamis Bobbystunner. They have consistently proven to be cattle of top breeding performance and we recommend them highly.

**GRENADE BLOSSOM** — Acadia Flossy 3d came to Tomson's among the tops of the 1961 Acadia sale. She has produced three of the best bulls ever to leave the farm, including Gallant Grenadier, the sire of this heifer. From a dependable Orange Blossom family, there's a cross of Pittodrie Upright on the dam's side as well. Pasture bred to Keynote's Clipper Max.

**GRENADIER MAYFLOWER** — Gallant Grenadier is one of the good bulls to leave Wakona in the last several years. He has done exceptionally well in the Stunkel herd at Peck, Kan. This daughter will be served to Sutherland Prospector x, the International reserve grand champion, by sale day.

**Tomson females are wintered out-of-doors the year around and seem to thrive under the most severe conditions. All of these sell March 15. From left are MARIGOLD 58th, Lot 23, LADY CLIPPER 21st, Lot 33, and AUGUSTA 253rd, Lot 26.**

## A Special Draft from Floyd Hughes & Son

Shorthorns have been produced by three generations of the Hughes family. The registered herd was founded in 1941 with purchases from the Dr. J. C. Manning and W. F. Barber herds in Skidmore, Mo. In the next few years, top females were added from Bellows Bros., Merryvale Farms, Sni-A-Bar Farms and Reuben Strother. We feel that the real foundation was laid in 1951 with purchases of both top females and the top bull from the Tomson Brothers sale, as well as eight females with calves at foot purchased privately. A later sire was added at the D. M. Gregg Dispersion.

Since this time, only the top females that Tomson Brothers have offered at sales and privately have been added. We have purchased state sale top sellers and a number of champions from the Salina and Ak-Sar-Ben National sales. Today there are more than 100 cows in the herd. They have produced a large number of 4-H club winners in Missouri, Nebraska and Iowa.

The present sires are easily the best we have used. **Dazzler Prince** is by Barbarian Prince and was the top-priced Tomson bull of his year. **Super Constructor** is a very modern son of KC Constellation, the Missouri junior champion. The latest purchase is an interest in the great **Louada Javelin**. These bulls are producing excellent calves for us.

Over the years we have used 21 Tomson bulls, and more than 90% of the cows are backed by Tomson blood.

**Lot 78**

# STANDARD GUARANTEE

Endorsed by The American Shorthorn Ass'n

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
